What is a Kinetica+ K4 3* Kitemarked Euro Cylinder?

Next time you change a lock, make it a game changing one. With the multi-award winning, multi-patented safety features of the Fullex Kinetica+ K4 Horizontal. Thanks to its advanced technology and unrivalled built-in performance at every turn, it takes security, safety, hygiene and easy-fit functionality to a whole new level. At the heart of the cylinder's advanced defence capability lies an ingenious cam system that delivers a new kind of security.

Why Choose a 3* Cylinder?

The Kinetica+ K4 3* Kitemarked thumb turn euro cylinder with Easy Turn Helix system is a combination of the expertise from UAP and Fullex 3 Bio keys have antibacterial and antiviral properties. Bio keys have been tested to ISO 22196:2011 and shown to reduce Staphylococcus aureus and Escherichia coli and to ISO 21702:2019 and shown to reduce SARS-CoV-2.

What else is included?

The cylinder comes with a key fob which includes a QR code. Customers can register the cylinder on our website to activate their registration and Free maintenance updates from us. What's more, customers will also have access to 'My Keys.' This allows the customer to keep a record of their key number and an image, so if they ever lost all of their keys, they can log in to the website and simply take the key number and image to a key cutter to get cut. This will save them the expense of having to replace their cylinder!

Bio keys have antibacterial and antiviral properties. Bio keys have been tested to ISO 22196:2011 and shown to reduce Staphylococcus aureus and Escherichia coli and to ISO 21702:2019 and shown to reduce SARS-CoV-2.

ANTI-BUMP

The cylinder has a unique and patented anti-bump system which does not use trap pins. This system makes the turning of the cylinder key extra smooth.

ANTI-DRILL

Hardened steel anti-drill pins are in each side of the cylinder. Plus all moving pins are nickel plated hardened steel 50 HRC minimum.

ANTI-PICK

Anti-pick pins in each side of the cylinder makes it extremely difficult for a common burglar to pick the cylinder.
