centres

Innovative and Unique

The Lions Head Round Door Knockers are completely innovative and unique and the most impressive thing we have in our collection. Often, people are looking for something a little bit different and impressive if they really want to improve and enhance the overall look and feel of their door hardware. One of the most effective ways in which to make a statement is with top of the range, visually stunning Lions Head Round Bolt Fix Door Knockers as they are quite simply spectacular and create a stunning entrance.

Eye-Catching Door Knocker

There should always be a main focal point on every door, and the most effective way in which to achieve this result is with an eye-catching door knocker. The Lions Head Round Door Knocker has a durable finish and is constructed from solid brass, so is incredibly hard-wearing and resilient. The Lions Head Round Door Knocker make the perfect centrepiece for any front door and is ideal for larger doors.

Non-Rusting Bolts

Each Lions Head comes with 2 perfectly-matching solid brass nuts and washers for effective colour co-ordination. The door knocker is fitted onto the door using revolutionary nylon bolts, which can fit door thicknesses of up to 75mm. They are incredibly easy to cut down to size if needs be-and all you need is a Stanley knife in order to complete this task-so no more sawing. The nylon bolts also do not condensate or rust, which means that your company's door will look pristine and impressive to your customers for an extended period of time, adding to an excellent customer perception of your company as a whole.
