

Rim Lock

With 2 Keys

140mm deadlock for secure door latching

Ideal for wooden doors and gates

Available in 100mm, 140mm and 150mm

Durable design with easy key access

Suitable for both residential and outbuilding applications

Reliable and Secure

The Intelligent Hardware 140mm Rim Deadlock is a reliable and secure locking solution designed to enhance door safety while ensuring ease of use. This high-quality rim lock combines a strong latching mechanism with a key-operated deadlock, providing an added layer of security for your doors and gates. Its robust construction makes it ideal for both internal and external wooden doors, including garden gates, sheds, and outbuildings. The included two keys allow convenient access while maintaining secure locking, making it a practical choice for residential properties and storage spaces alike. With its sleek and durable design, this rim lock offers a perfect balance between functionality and security, ensuring long-lasting performance in various environments.

Multiple Size Options Available

Available in multiple sizes – 100mm, 140mm, and 150mm – this rim lock caters to different door and gate dimensions, offering flexibility for a range of applications. The sturdy metal construction ensures resilience against tampering and weather conditions, making it suitable for both indoor and outdoor use.

Whether you need to secure a garden shed, a workshop, or an entry door, this rim deadlock provides peace of mind with its strong locking mechanism. Easy to install and use, it is an excellent choice for homeowners and property managers looking to improve security effortlessly. Designed for versatility, durability, and convenience, the Intelligent Hardware Rim Deadlock is a reliable security solution for a wide range of wooden doors and structures.
