

Traditional Rim Nightlatch

60mm Backset

Supplied with complete rim cylinder for easy installation

Contains an internal snib for added functionality

Snib allows for holding the hatch back or deadlocking it for enhanced security

Tradition Rim Nightlatch

The traditional rim nightlatch offers reliable security with a classic design, making it an ideal choice for residential and commercial doors. Featuring an internal snib, this nightlatch provides added functionality, allowing users to either hold the latch back for convenience or deadlock it for enhanced security. Designed with a 60mm backset, it is compatible with standard door fittings, ensuring easy integration into most setups. For a hassle-free installation process, the nightlatch comes complete with a rim cylinder, making it a practical and secure solution for safeguarding your property.
