

Door Numbers & Letters

Screw Fix

Simple, user-friendly installation

Durable and weather-resistant for long-lasting performance

Includes two colour-matching screws for seamless coordination

Elegant Times Roman font

3-inch height for enhanced visibility on doors

Part of the Nanocoast Range

These stylish 3-inch numerals are designed to offer enhanced visibility, making them an excellent choice for doors, gates, and mailboxes. Crafted in the elegant Times Roman font, they provide a timeless, classic aesthetic that complements both traditional and modern homes. The refined lettering ensures a sophisticated appearance, adding a touch of elegance to any entrance. Their bold design makes them easy to read from a distance, ensuring guests, delivery personnel, and emergency services can quickly identify your property. Whether used for a single-digit house number or a longer combination, these numerals maintain a uniform and polished look that enhances the overall curb appeal of your home. Each numeral comes with two colour-matching screws, ensuring a seamless and coordinated installation without distracting fasteners. The installation process is simple and user-friendly, allowing homeowners to securely mount the numerals with minimal effort.

Designed for durability, these numerals are made from high-quality materials that resist wear from the elements, ensuring they maintain their crisp appearance over time. Whether exposed to rain, snow, or direct sunlight, they are built to withstand varying weather conditions without fading or tarnishing. With their combination of practical functionality and refined aesthetics, these numerals are the perfect finishing touch for any property, offering both visibility and style.
