Euro Profile Escutcheon

The Intelligent Hardware Euro profile round escutcheon is a stylish and practical addition to the Internal Hardware Range. Designed with a round rose, it is available in a sleek Polished Chrome finish or a modern Satin Nickel dual finish, allowing it to complement a variety of door designs. This escutcheon is specifically designed to be compatible with all lever on rose handle packs, ensuring seamless integration with your existing door hardware.

For convenience, the escutcheon comes complete with fixing screws and features an Easy-Fix fitting, making installation quick and straightforward. Built for durability, it includes a 5-year mechanical warranty, providing long-term reliability and peace of mind. Whether used in a residential or commercial setting, this high-quality escutcheon offers both functionality and a stylish finishing touch.
