Easy Installation

Enhanced Security

The R-lock is a robust locking mechanism that effectively deters potential intruders from gaining unauthorized entry through windows. It significantly reduces the risk of break-ins and adds a layer of protection to your customers' homes or businesses.

Easy Installation

We understand that as a trade professional, time is valuable. The R-lock's straightforward installation process saves you precious time during fitting, allowing you to focus on completing projects efficiently.

Versatility

Suitable for a wide range of windows, the R-lock can be used in residential, commercial, and industrial settings, making it a versatile choice for your diverse clientele. At UAP Ltd, we prioritize innovation and customer satisfaction, and the R-lock is no exception. Join our network of trade professionals who trust the UAP brand for delivering cutting-edge solutions that exceed expectations.

Durable Construction

Crafted from high-quality materials, this window restrictor lock is built to withstand the test of time and harsh weather conditions, making it a cost-effective investment for both you and your customers.

Child Safety

Safety is of utmost importance, especially when it comes to children. The UAP Ltd R-lock ensures that windows cannot be opened too wide, preventing accidents and falls while allowing proper ventilation.

Aesthetically Pleasing

The sleek and contemporary design of the R-lock seamlessly integrates with various window types, preserving the aesthetic appeal of the property while providing the necessary security measures.
