Description:

High viral resistance coating;

- Kills over 99% of viruses, including SARS-CoV-2 (verified in a Cat 3 testing facility)
- 100x greater at killing viruses including SARS-CoV-2 compared to stainless steel

High Anti Corrosion Performance;

- Greater than 10x times corrosion resistance in a high UV Humidity chamber compared to copper
- Greater than 10x times corrosion resistance in a Salt Spray chamber compared to copper
- 10 year warranty

- Reduced cleaning requirements compared to standard stainless steel
- There are no requirements to use harsh cleaning chemicals (mild detergent if required)

Transform the look and functionality of your doors with our Armasmart® Pull Handles,, meticulously engineered with premium features to enhance any space. Supplied complete with M8 fixings tailored for timber doors, these handles offer hassle-free installation and lasting durability. Available in sleek 19mm diameters, they provide a modern touch to any door.

For push/pull applications, simply pair with an appropriate push plate for seamless operation from both sides of the door. Our pull handles, with 300mm centres, adhere to the stringent requirements of BS 8300, ensuring accessibility and compliance. Experience unparalleled quality and style with Armasmart® Pull Handles, the perfect choice for discerning projects.
