

UAP Straight Pull Handle

Easier to grip for those with arthritis or limited hand movement

All pull handles have two fixing points with an individual plate on each

Comes with an Allen Key and 2 Allen Bolts on each of the up-stands

Each pull handle comes with a LIFETIME coating guarantee!

38mm diameter for sturdier construction

Made from 1.5mm high grade stainless steel

3 fixing methods available - hidden fixings, bolt through and back-to-back

UAP Straight Pull Handle

When designing the UAP Straight Pull Handle, we consulted with several door manufacturers during the design process to ensure our straight pull handle met the desired specifications of the majority. We also did not want to have any of the downfalls that may be present on other pull handles in the market.

Part of the Nanocoast Range

The first thing we decided to do was make each straight pull handle from 1.5mm thick high grade stainless steel and made it part of the [UAP Nanocoast](#) range. The [UAP Nanocoast](#) range of products are specifically designed for areas which are within a 25-mile radius of the coast, or within 5 miles of highly populated industrial areas. The Nanocoast comes with an industry first LIFETIME coating guarantee, as the pull handle will not pit, rust or corrode no matter what environments you put them in!

Easy Grip Handle

We then made the pull handle have a much sturdier construction with a 38mm diameter. This also makes it easier to grip the handle, especially for people who have got arthritis or limited hand movement. So, with that said, it is a more robust type of bar. We decided against using a thinner up-stand and welding. Using a 38mm bar against a 38mm straight bar gives a more robust and better-looking product. The bolt through fixing gives a neater finish and as Stainless Steel is used, the product will not rust and so there will be no leakage if it rains. What makes the straight pull handle really stand out is the 3 different fixing methods available - hidden fixings, bolt through and back-to-back fixings. Due to the fixing methods, customers also have the option of sending the door to the site without the straight pull handle on, this will prevent damage in transit or on site. The door will simply be sent with the fixings on, and the installation would be completed on site.

Available in 2 finishes

Size	Stainless Steel	Mirror Polished	Shape	Centres	Material Construction	Coating Guarantee
400mm	PH400S-SSS-NANOCOAST	–	Straight	300mm	Stainless Steel	LIFETIME
600mm	PH600S-SSS-NANOCOAST	–	Straight	400mm	Stainless Steel	LIFETIME
900mm	PH900S-SSS-NANOCOAST	PH900S-MPSS-NANOCOAST	Straight	700mm	Stainless Steel	LIFETIME
1200mm	PH1200S-SSS-NANOCOAST	PH1200S-MPSS-NANOCOAST	Straight	1000mm	Stainless Steel	LIFETIME
1500mm	PH1500S-SSS-NANOCOAST	PH1500S- MPSS-NANOCOAST	Straight	1300mm	Stainless Steel	LIFETIME
1800mm	PH1800S-SSS-NANOCOAST	PH1800S- MPSS-NANOCOAST	Straight	1500mm	Stainless Steel	LIFETIME
