The Range

With a variety of wide angle door viewers homeowners will be able to select the viewer most suitable for their needs and overall home interior and exterior. Whatever their overall door hardware finish is there is a spyhole suitable to match it. Made with a solid brass body, and comprising of 3 plastic lenses, each spyhole ensures to give crystal clear performance for years of safe, secure use. As standard, wide angle door viewers are salt spray tested for a minimum of 480 hours, and comes with a 5 year inland coating guarantee. Polished brass and polished chrome door viewers come with a PVD head, which helps prevent rust developing in coastal areas.

Each spyhole has gone through rigorous testing, and have each been tested to DHF TS002:2009 which covers Corrosion Resistance, Security (Angle of Vision), Visual Clarity, Resistance to Misting Up, Ability to Clear After Misting, Length Adjustment Range and Marking. The door viewers have also been awarded 'Secured by Design' by the Association of Chief Police Officers.

Why get a Spy Hole?

Door viewers (spyholes) are a great security accessory for your customers, as no door should be opened without first checking who is on the other side. Door security is essential to ensuring a home is safe and once quality locks have been fitted it's key to have a door viewer. Many homeowners overlook the importance of really seeing who is on the other side of the door and essentially this can actually be the best way to prevent unwanted guests, break-ins, and scams. Providing your customers with this important information will help them learn to better protect their homes and keep intruders out.
