

Ball Bearing Butt Hinge

Designed for internal use only

Made from high-grade material

Comes with screws for easy installation

Ball Bearing Butt Hinge

These Ball Bearing Butt Door Hinges are crafted from high-grade stainless steel, ensuring exceptional durability and long-lasting performance. Designed with a square corner for a traditional and secure fit, these hinges are ideal for internal use only. Each pair is supplied with matching screws, making installation quick and hassle-free. With smooth ball bearing operation, they offer enhanced strength and reliability, making them a perfect choice for both residential and commercial applications.
