

Button Tipped Hinge

Includes fixing screws for easy installation

Made from high-quality steel for strength and durability

Sold in pairs

Premium Performance Hinge

Button tipped hinges have superior durability and strength. Constructed from high-grade steel, these butt-type hinges provide exceptional support and reliability, ensuring long-term functionality for any door fitting project. The robust build quality makes them ideal for both residential and commercial applications, where stability and endurance are paramount. With a sleek, modern square-corner design, these hinges seamlessly blend into any décor, providing a polished and professional finish. Whether used in new installations or replacements, their high-quality craftsmanship ensures smooth and effortless door operation, enhancing both security and convenience.

Designed for ease of installation, each pair of hinges comes complete with fixing screws, making them a hassle-free solution for both professionals and DIY enthusiasts. Whether for home renovation projects or large-scale commercial installations, these premium-quality hinges provide the perfect combination of strength, safety, and style.
