

Cockspur Window Handle Kit

Supplied with 3 different sized packers

Engineered for durability and long-lasting performance

Universal fitting, designed with four screw-fixing centre options

High-quality construction

Features a unique patented design that fits most applications

Versatile, Secure & Easy to Install

The Schlosser Technik Apto Cockspur Handle is a high-quality replacement handle designed to provide a seamless upgrade for existing window handles. Featuring a unique patented design, this handle is compatible with most applications, accommodating 9mm, 13mm, 17mm, and 21mm step heights. To ensure a perfect fit for a variety of window setups, it comes with three different-sized packers, allowing for easy adaptation without the need for additional modifications. Its universal fitting centres make installation simple, with four screw-fixing centre options that provide excellent versatility across different window types. Built for durability and reliability, the Schlosser Technik Apto Cockspur Handle offers a smooth, secure operation, making it an ideal choice for homeowners and professionals seeking a dependable, high-performance window handle.
