

Commercial Range

Pull Handles

Satin Stainless finish

Ideal for push/pull use with push plate

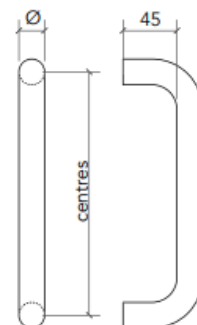

Sleek 19mm diameter design

Meets BS 8300 standards

Complete with M8 fixings, suitable for timber doors

Commercial Range Pull Handle

This pull handle, supplied with M8 fixings for timber doors, features a sleek 19mm diameter design, making it ideal for push/pull applications. It pairs perfectly with a push plate for added functionality. With 300mm centres, it meets BS 8300 accessibility standards, ensuring inclusive design for all users. Crafted for durability, its high-quality satin stainless steel finish makes it suitable for both residential and commercial settings.
