

Egress & Egress Easy-Clean Friction Hinges

- Quality replacement hinges for PVC double-glazed windows
- Available in 13mm or 17mm stack heights
- Fixes gaps, drafts and hinge movement
- Includes 4mm white friction stay packers for perfect alignment
- Enhances window ease of use, eliminating clunky opening or closing

Part of the Window Hardware Range

Upgrade your PVC double-glazed windows with high-quality replacement hinges, designed to improve functionality and durability. These hinges come with 4mm white friction stay packers, ensuring perfect alignment for a secure and precise fit. The reliable Egress Easy Clean friction stays enhance both safety and ease of use, allowing for smooth opening and closing without stiffness or resistance. Whether you need to replace worn-out hinges or improve your window's performance, these friction stays provide an effective and long-lasting solution.

Available in 13mm or 17mm stack heights, these hinges are designed to match your specific window requirements. They help eliminate common issues such as gaps, drafts, and cold spots, making your home more energy-efficient and comfortable.

13/17mm Stack:
