Possible to have an additional
single hook

Secured by Design Approved

The SL16 Multibolt has gained an enviable reputation in all markets for strength and reliability in over 17 years of successful service. The 2 + 2 lock was the FIRST lock manufactured in the UK to offer the now very popular hook and bolt combination. Designed for PVCu, composite, timber, steel and aluminium doors, it has been awarded the 'Secured by Design' approval and meets PAS24 requirements, meaning that you will be able to offer your customers a high quality and high security solution for their doors:

Maximum Security

The SL16 deadbolts are chamfered to pull in smoothly and have a 25mm long throw for maximum security on any door type. The SL16 lock also forms the basis for another highly successful Fullex product, the [Gemini double door locking system](#):

Secured by Design

Police Preferred Specification

Faceplate= 1720mm x 20mm (Steel):

Product Code	Spindle	Backset Size	Faceplate Width	Handle Backplate	Handle Centres	No of Hooks	Hook Direction	No of Deadbolts
