

Inline Espag Handles

Durable repair solution

Suits both left and right-handed windows

Includes five spindle options

Easy installation

Key-locking mechanism with a push-button ensures added safety

Added Security and Durability

The Window Espag Handle Repair Kit offers a high-quality, durable, and cost-effective solution for repairing, retrofitting, and maintaining windows. Designed to enhance both functionality and security, this kit features a robust key-locking mechanism with a convenient push-button, providing peace of mind by preventing unauthorised access. The universal inline design ensures compatibility with both left and right-handed windows, making it a versatile option for a wide range of applications. Whether you're replacing a damaged handle or upgrading an existing one, this kit is designed for seamless installation and long-term reliability. Additionally, the standard 43mm fixing centres make it suitable for most industry-standard espag handles, ensuring an easy and hassle-free fit for virtually any window setup.

For added convenience and flexibility, the kit includes five different spindle lengths (10mm, 15mm, 20mm, 30mm, and 40mm), allowing users to customise the fit according to their window's requirements. Everything needed for a straightforward installation is included, such as a key, screw cap cover, and all necessary fixing screws, providing a complete, all-in-one solution. Whether for professional tradespeople or DIY enthusiasts, this reliable, secure, and easy-to-install window handle repair kit ensures smooth operation and long-lasting performance.
