

Standard Friction Hinges

Easy Installation

Designed for PVC Windows

Eliminates drafts

Improved Functionality and Smooth Operation

Long-lasting and reliable replacement with 4mm packers

Upgrade your windows

Upgrade your PVC double-glazed windows with high-quality replacement hinges featuring friction stays for enhanced durability and smooth operation. Designed to reduce friction and eliminate drafts, these hinges help maintain a cosy home by preventing unwanted air leaks and cold spots. Supplied in pairs with 4mm white packers for perfect alignment, they ensure an easy and secure installation. Say goodbye to clunky, worn-out hinges and enjoy effortless window functionality with these reliable and long-lasting replacements.
