

Straight Pull Handle

Made from thick, high-quality Stainless Steel

LIFETIME coating guarantee

Designed for coastal and industrial areas

Easy to install with hidden fixings for a sleek look

38mm diameter for better grip and accessibility

Part of the Nanocoast Range

Crafted from high-grade, thick stainless steel, this pull handle is designed for exceptional durability and resistance to wear and tear. As part of the UAP Nanocoast range, it is specifically engineered to withstand the harsh conditions of coastal and industrial environments, making it ideal for areas within 25 miles of the sea or 5 miles from heavy industrial zones. What sets this handle apart is its industry-first LIFETIME coating guarantee, ensuring complete protection against pitting, rust, and corrosion. The robust 38mm diameter provides a comfortable grip, making it particularly suitable for those with arthritis or limited hand mobility. Additionally, its ergonomic design ensures ease of use while maintaining a sleek and modern aesthetic.

For seamless installation, the handle features three secure fixing methods: hidden fixings, bolt-through, and back-to-back, allowing flexibility to suit different door types. Each pull handle has two fixing points with individual plates for added stability, and the bolt-through option provides a clean finish while preventing rainwater leakage. The package includes an Allen key and two Allen bolts per upstand, ensuring a secure and straightforward fitting process.

Stainless Steel:

Size	Product Code	Centres
400mm	PH400S-SSS-NANOCOAST	300mm
600mm	PH600S-SSS-NANOCOAST	400mm
900mm	PH900S-SSS-NANOCOAST	700mm
1200mm	PH1200S-SSS-NANOCOAST	1000mm
1500mm	PH1500S-SSS-NANOCOAST	1300mm
1800mm	PH1800S-SSS-NANOCOAST	1500mm

Mirror Polished:

Size	Product Code	Centres
900mm	PH900S-MPSS-NANOCOAST	700mm
