About this cylinder

This cylinder is part of the UAP Cylinder Guarantee Scheme. The cylinder comes with a key fob which includes a serial number. Customers can register the cylinder on our website to activate their 2 year guarantee. What's more, customers will also have access to 'My Keys.' This allows the customer to keep a record of their key number and an image, so if they ever lost all of their keys, they can log in to the website and simply take the key number and image to a key cutter to get cut. This will save them the expense of having to replace their cylinder!

We have in-house locksmiths which offer you the option to have keyed alike cylinders, or create customised and complex mastersuite systems. Alternatively, we can supply re-pinning kits which will allow you to key alike and mastersuite the cylinders yourself!

Why choose this cylinder?

The TL budget thumb turn euro cylinder is a great choice for inexpensive home security installation. The high quality 6 pin budget thumb turn euro cylinder come in a range of sizes to make sure the cylinder is fit flush to the handle.
