Description:

High viral resistance coating;

- Kills over 99% of viruses, including SARS-CoV-2 (verified in a Cat 3 testing facility)
- 100x greater at killing viruses including SARS-CoV-2 compared to stainless steel

High Anti Corrosion Performance;

- Greater than 10x times corrosion resistance in a high UV Humidity chamber compared to copper
- Greater than 10x times corrosion resistance in a Salt Spray chamber compared to copper
- 10 year warranty

- Reduced cleaning requirements compared to standard stainless steel
- There are no requirements to use harsh cleaning chemicals (mild detergent if required)

Upgrade your bathroom locks with our Armasmart® Bathroom Turns, featuring a rose-mounted indicator and turn mechanism for added privacy and convenience. Each turn is supplied complete with an indicator, ensuring seamless operation and clear communication of occupancy. With face fixings included, installation is quick and straightforward. Compact yet functional, measuring 51mm high by 51mm wide, these turns offer both reliability and style for your bathroom doors.
