Description:

High viral resistance coating;

- Kills over 99% of viruses, including SARS-CoV-2 (verified in a Cat 3 testing facility)
- 100x greater at killing viruses including SARS-CoV-2 compared to stainless steel

High Anti Corrosion Performance;

- Greater than 10x times corrosion resistance in a high UV Humidity chamber compared to copper
- Greater than 10x times corrosion resistance in a Salt Spray chamber compared to copper
- 10 year warranty

Low Maintenance;

- Reduced cleaning requirements compared to standard stainless steel
- There are no requirements to use harsh cleaning chemicals (mild detergent if required)

Enhance the security and style of your timber doors with our Armasmart® Escutcheons, meticulously crafted with advanced features for premium performance. Engineered with anti-viral, anti-bacterial, and anti-tarnish properties, these escutcheons provide enhanced hygiene and durability. Designed with concealed fixings, they seamlessly complement rose-mounted levers or pull handles, ensuring a sleek and cohesive look.

With dimensions of 50Ø x 8mm, these escutcheons offer a perfect fit for various door setups. Supplied with face fixings for easy installation, they're made from high-grade stainless steel, guaranteeing both strength and longevity. Available in a stylish Copper finish, these escutcheons require minimal maintenance, making them an ideal choice for any project.
