Supplied with 3 keys

Part of the UAP Cylinder Registration Scheme

Has 6 pins

Full keyed-alike and mastersuite services available

Unrestricted keyway — easier for customers to get keys cut

Over 200,000+ different key combinations!

Why choose this cylinder?

The UAP+ cylinder is the best choice for inexpensive home security installation. Created in accordance with the British Standards Kitemark, and also awarded the "Secured by Design" approval by the Association of Police Officers, the high quality 6 pin double Kitemarked euro cylinder can be fitted to any external door in order to ward off criminals that attempt to use the most popular break-in methods.

3 Star Solution

The cylinders are ideal to be combined with 2* Kitemarked high security door handles. Combining a 2* security door handle with the UAP 1* cylinders will give you a professionally looking 3* security solution. We have also developed a specially sized 30/35 (65mm) cylinder which is the perfect size cylinder to use on 44mm door blanks with the UAP high security door handles! Alternatively, you can combine the UAP+ 1* cylinder with 2* high security escutcheons.

Part of the UAP Cylinder Registration Scheme

The cylinder comes with a key fob which includes a serial number. Customers can register the cylinder on our website to activate their guarantee. What's more, customers will also have access to 'My Keys.' This allows the customer to keep a record of their key number and an image, so if they ever lost all of their keys, they could log in to the website and simply take the key number and image to a key cutter to get cut. This will save them the expense of having to replace their cylinder! The cylinders have been tested to EN1303:2015, and are also 1 hour fire resistant! Each cylinder is packed full of security features and is part of UAP's super smooth cylinders using the Chris Belcher designed anti-bump timing pin system. This very clever system uses nickel plated hardened steel key pins and driver pins, which gives the anti-drill feature we wanted to incorporate.

The UAP+ 1* cylinders can be combined with 2* Kitemarked Escutcheons to achieve a 3* solution for PAS 24 doors

Available in 5 finishes
