Ponytail Door Knocker

The Ponytail Door Knocker perfectly merges timeless, eclectic Art Deco style, with traditional elements of a classic knocker. This means that it is ideal for more modern, contemporary home exteriors. There is also ample room to have Ponytail Door Knockers laser-engraved if you want to make them truly unique and individual.

Non-Rusting Bolts

The door knocker comes with 2 perfectly-matching solid brass nuts and washers for effective colour co-ordination. The door knocker is fitted onto the door using revolutionary nylon bolts, which can fit door thicknesses of up to 75mm. They are incredibly easy to cut down to size if needs be-and all you need is a Stanley knife in order to complete this task-so no more sawing. The nylon bolts also do not condensate or rust, which means that your company's door will look pristine and impressive to your customers for an extended period of time, adding to an excellent customer perception of your company as a whole.

Highly Desirable

Ponytail Door Knockers are considered highly desirable and sought after by those looking for sleek, modern hardware which comes bearing the hallmark of true quality and excellence. They are ideal for narrow vertical profiles featuring mouldings or planks and will visually enhance and improve any panelled door.
