

TS008 Box Quantities with Fixings

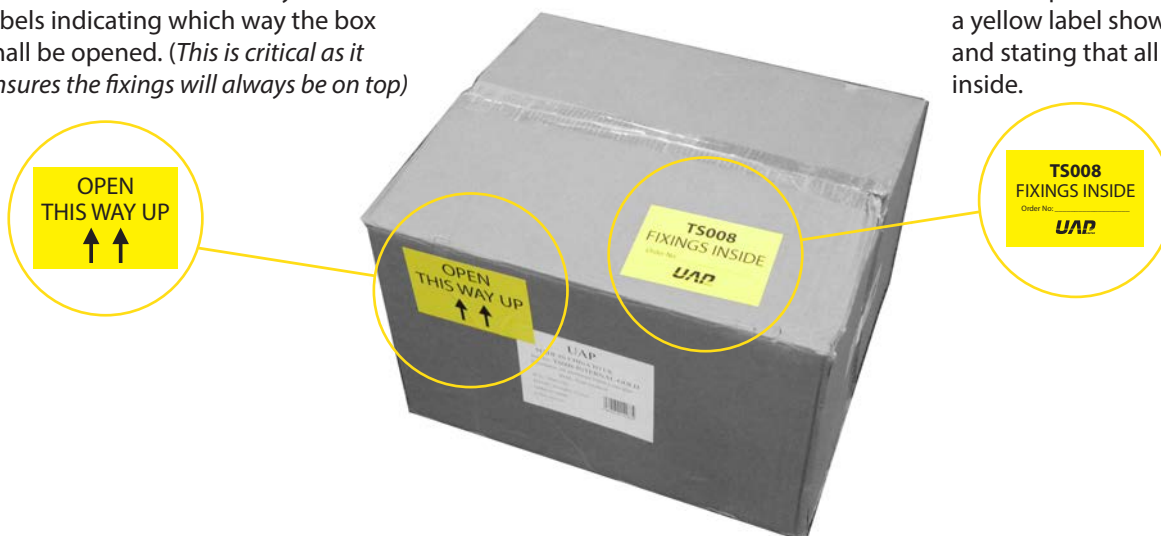

To maintain our high standards all of our TS008 boxes now leave our warehouse packed as shown below:

WHAT'S IN THE BOX?

TS008 Letterplate x 20
TS008 Letterplate Fixings x 20
Fitting Instructions x 1
Certificate x 1

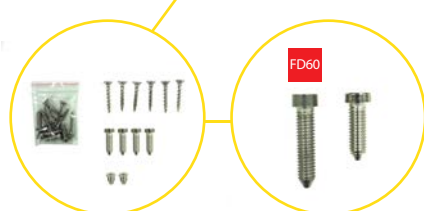

1. Each box is marked with yellow labels indicating which way the box shall be opened. *(This is critical as it ensures the fixings will always be on top)*

2. The top of the box is marked with a yellow label showing the order number and stating that all fixings are included inside.

3. When opened you will see the fixings packed on top. These will be clearly marked with yellow labels and placed on top of the letterplates.

4. Under the TS008 Fixings bag you will find fitting instructions and a certificate card. *(Please read instructions carefully and keep the guarantee card.)*

Each TS008 fixings bag consists of 6 wood screws, 4 x M6 screws, and 2 x M4 sleeved screws.

60 min Fire Rated Letterplates are supplied with longer screws and now marked with red FD60 label.

5. Finally you will find 20 high security TS008 Letterplates ready to be fitted.
